Every client gets setup with a folder that we share internally, and externally (your team).

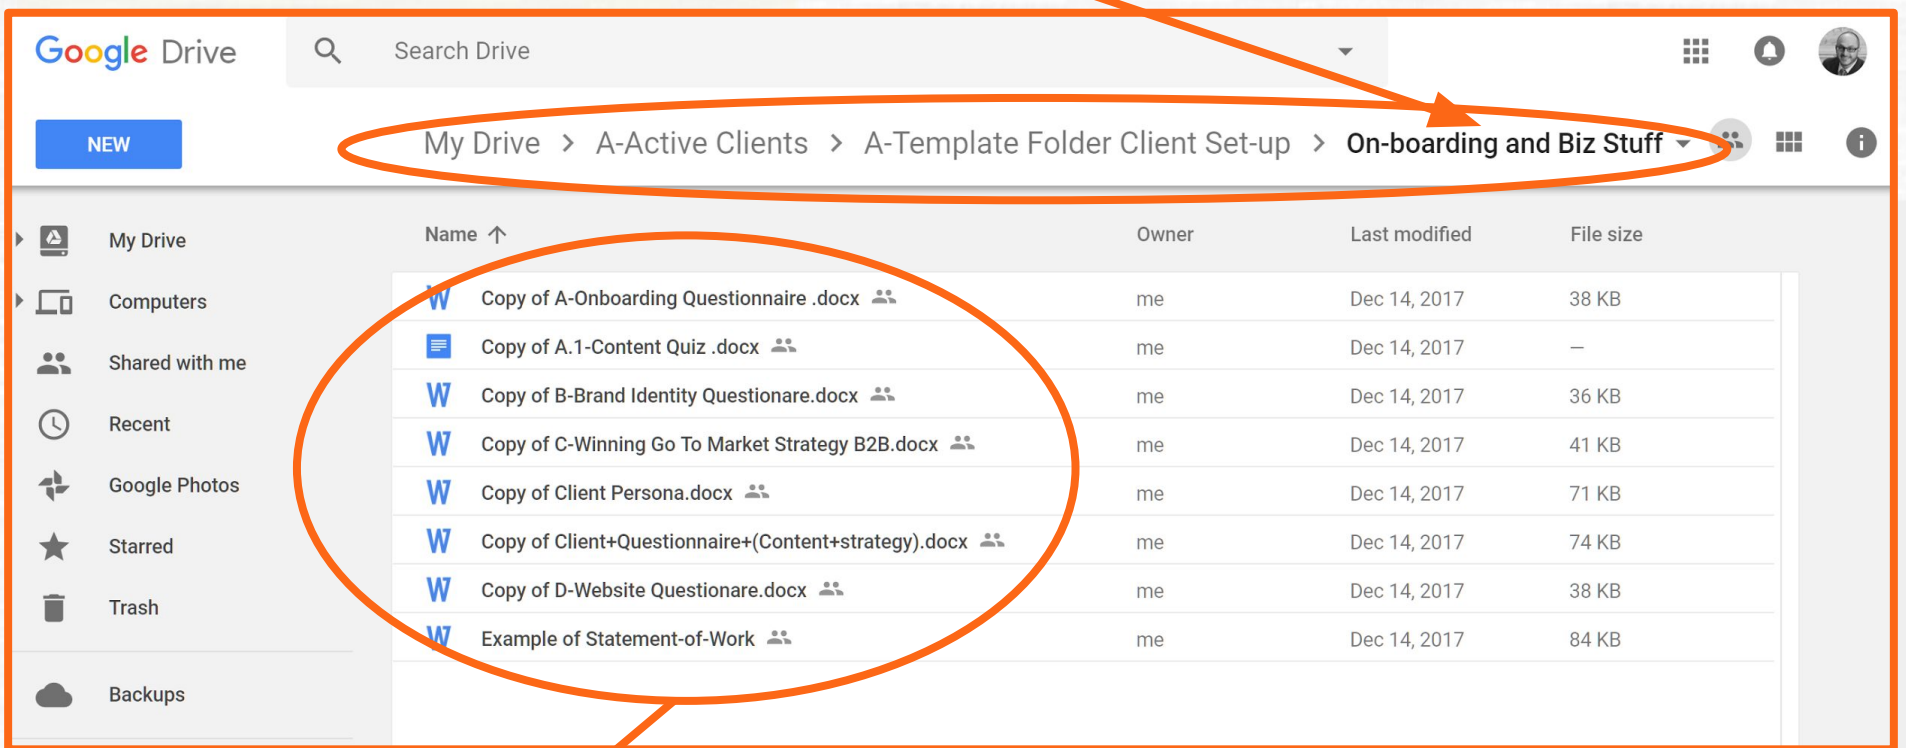

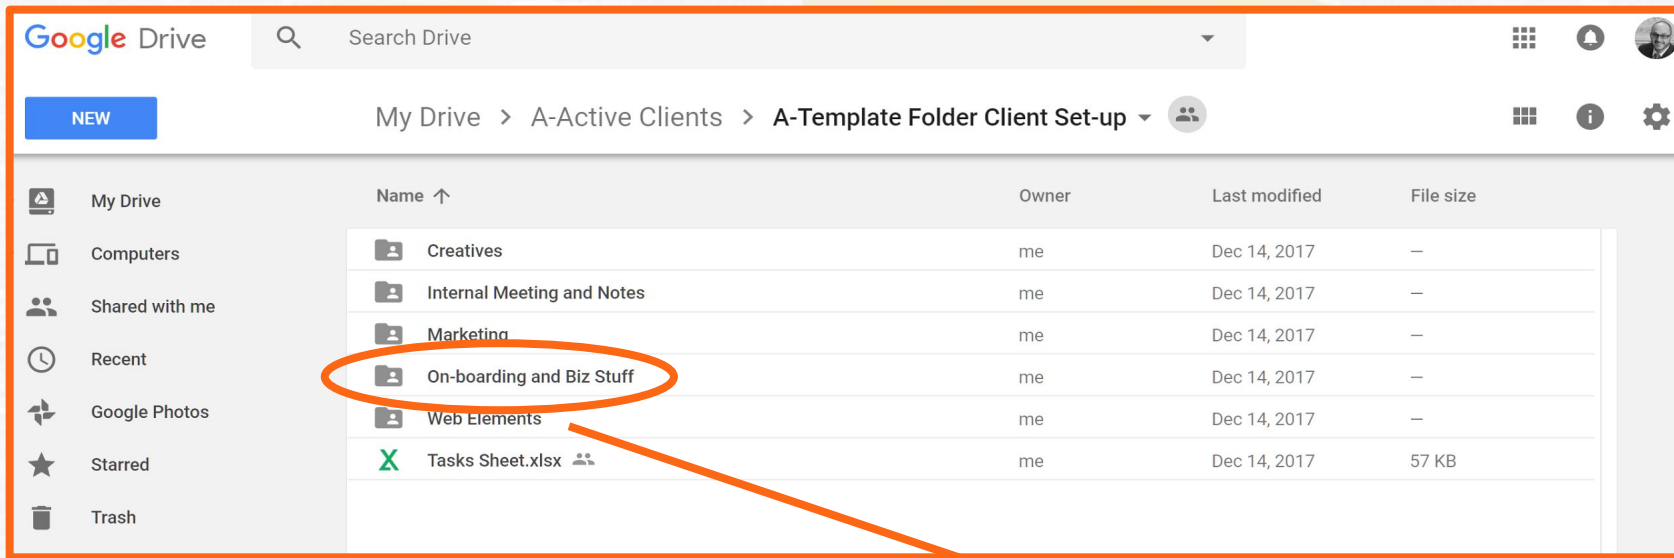

We have complete control with who we share these folders with.

Your folder will get personalized with your company's name or project

Your shared folder comes with subfolders for:

- Creatives
- Meetings and Notes
- Marketing
- Onboarding & Business
- Web Elements
- Excel Task Sheet

While the other folders are empty and waiting to be filled with your awesome stuff, the “Onboarding and Biz Folder” comes preloaded with amazing templates and guidelines to help get your product launched. We like to say you get a Rolls Royce of a product with the efficiency of a Ford assembly line.

## HOW COOL IS THIS?

Get notification via email for every change, and easy to message app.

The screenshot shows a Facebook group page for 'GBC CONSULTING'. The interface includes a top navigation bar with a search bar, user profile, and navigation links (Dashboard, Home). A notification bell icon with a red badge is highlighted by an orange box and an arrow pointing to the text 'Get notification via email for every change, and easy to message app.' Below the group header, there are tabs for 'About', 'Discussion', 'Members', 'Events', 'Videos', and 'Photos'. The 'Discussion' tab is selected, showing a post by 'Graeme Cohen' asking for screenshots. A red box highlights this post, with an arrow pointing to the text 'Main thread that is easy to follow.' To the right, there are sections for 'YOUR TOP GROUPS' and 'CONTACTS'. The 'CONTACTS' section lists team members: Jessica Mendoza, Rhoj Salazar, Sam Haber, Milo Hoffman, Bob Gammell, Ajay Rai, Phil Rajewski, and Jeremy Barnett. A red box highlights this list, with an arrow pointing to the text 'Team members involved on this project.' Another red box highlights the 'ADD MEMBERS' and 'SHARE AN INVITATION LINK' sections, with an arrow pointing to the text 'Because this platform is owned by Facebook, everything is very easy and comfortable.'

Main thread that is easy to follow.

Because this platform is owned by Facebook, everything is very easy and comfortable.

Team members involved on this project.

## Cost

Website: \$3000

Website will include all proprietary code and everything needed to be a fully functioning website. Once we agree on the project, you will receive a full Scope Of Work detailing all requirements, deadlines, and deliverables.

App Build: \$2000

The app build would need to be designed in conjunction with the website. This would help ease of compatibility. If you choose to build separately app would cost \$3000
